

## Application Installation

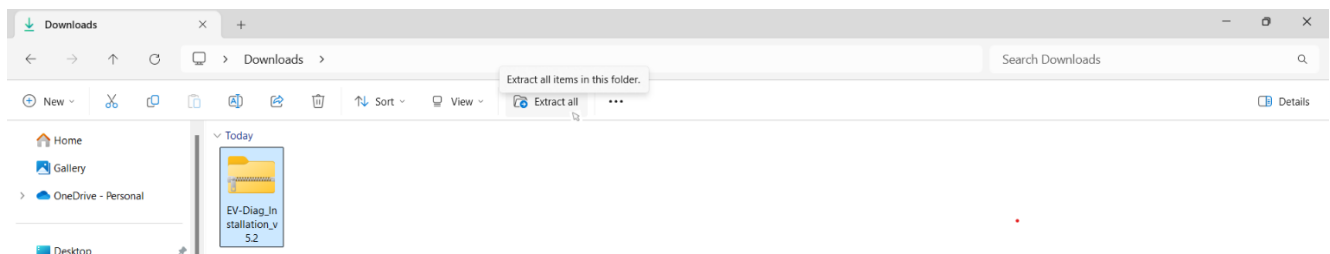

1. Download the software from the Scan Tool website.

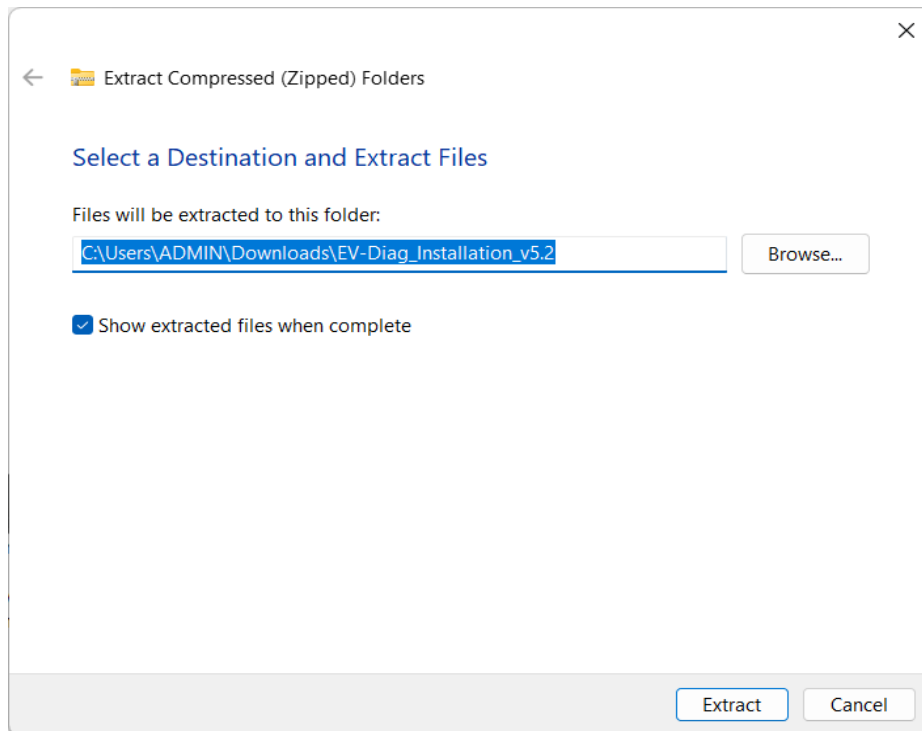

2. Click "Open" from the browser's download to access the downloaded file.

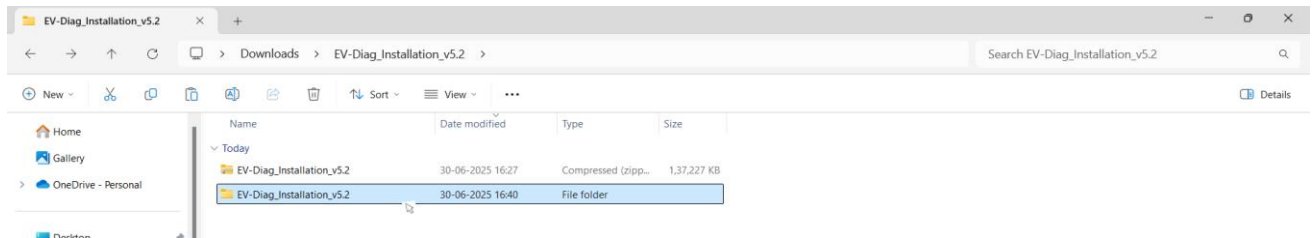

3. To unzip the folder click "Extract all".

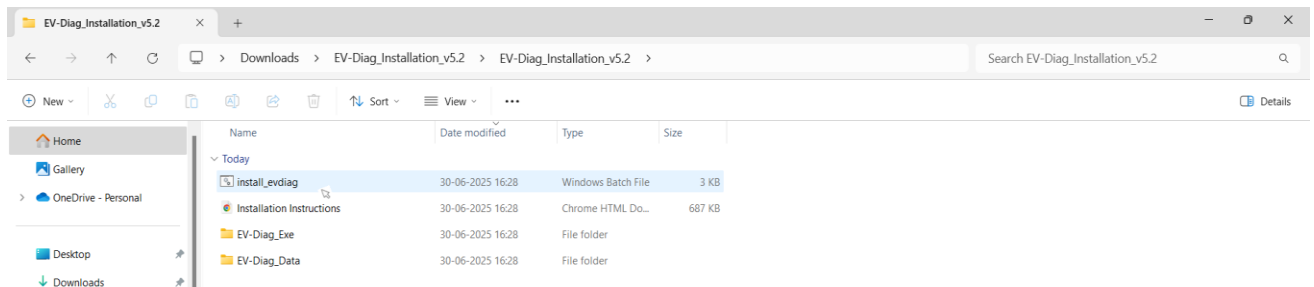

4. Now select the file destination and click *“Extract”*.

5. After extraction, open the extracted folder.

6. Double-click on the file *“install\_evdiag.bat”* to start the installation.

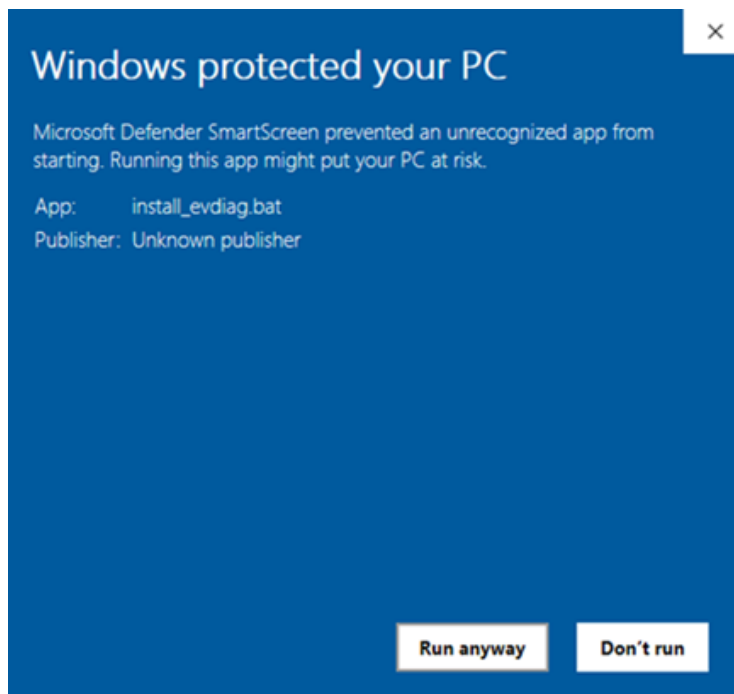

7 . If Windows Defender shows a warning:

- o Click “More info”

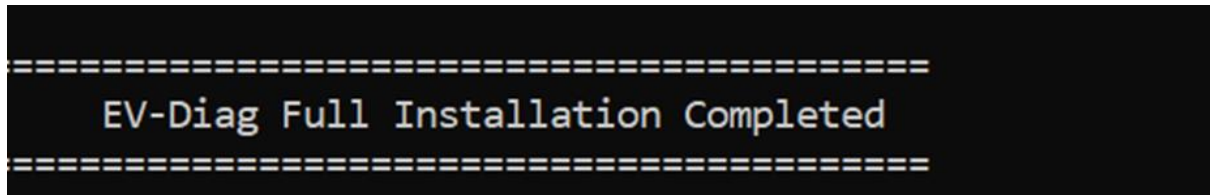

- o Then click “Run anyway”

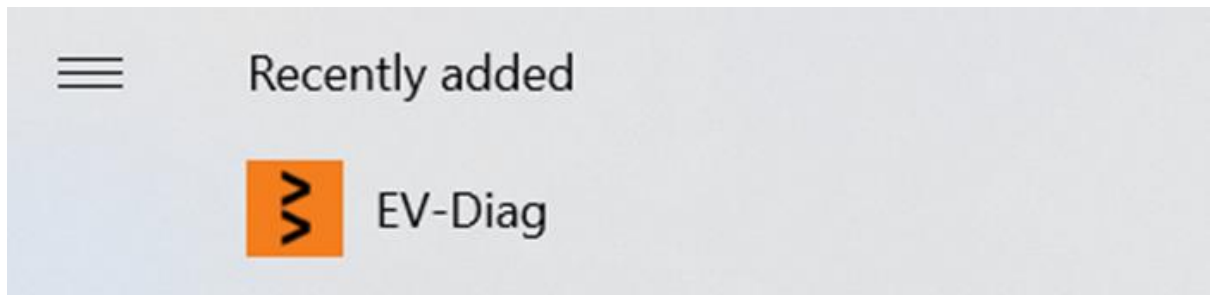

8. Wait for the script to finish running

once completed, it will display: "*EV-Diag Installation Completed*"

9. After installation, a shortcut named EV-Diag will be added to the Start Menu.

10. Go to the Start Menu, search for EV-Diag and open the application.
